EMS-ENI code - COMINF/3.1/1

Announcement: Completion of the "Communications Infrastructure" Project

As we approach the final stages of the "Communication Infrastructure" Project under the Joint Operational Programme Romania - Republic of Moldova 2014 - 2020, the Republic of Moldova is gearing up to activate a sophisticated and efficient cross-border communication system. With a total investment of 7,591,320.33 Euros, the project not only strengthens ties with Romania but also ensures optimal interoperability between the two countries.

The infrastructure works have been successfully completed by the company "EUROSTIL CONSTRUCT" following the signing of the Enterprise Contract for External Actions of the European Union on June 10, 2021. The selection of this company was based on its extensive experience in the construction domain and its impeccable reputation for quality and professionalism.

Currently, efforts are focused on final adjustments and cross-border interconnections with Romania to guarantee the implementation of IP telephony, Videoconferencing, and email services, as an integral part of the project.
